LOT 8793 - Stevens Model 55 22 S/L/Lr Single Shot Rifle

Description

Serial Number: NSN. Good condition. Bore is bright and shiny, and the bolt action runs smooth. Metal has picked up a patina. Stock has some light handling wear, and appears to have been cut on the left side for the addition of a side mounted sight. Front sight and rear sight are not original to the rifle, and the rear sight is missing it's step elevator.

The Stevens Model 55 production was quite limited, with only 3,500 being made in the short span between 1935-36. Making them highly collectible if they're in good condition. Featuring a 22" barrel, front post sight and rear elevation sight, single shot pull cocker, sling studs, and has a checkered walnut stock.

Serial Number: NSN, **Barrel Length:** 22"

Quantity: 1
