LOT 8795 - FN Luxembourg Contract Model 1949 30-06 Sprg. Semi Auto Rifle

Description

Serial Number: 4788. Excellent / Very good condition. Bore is bright and shiny. Firearm has some handling wear, common with military surplus firearms. Metal's black finish also has some wear.

The FN Model 1949 or SAFN, the predecessor to the FN FAL rifle, was one of the last battle rifles to sport a full wood walnut stock. Unfortunately delayed, The Model 1949 would have been along side other self loading semi automatic rifles of WWII, if wasn't for Germany's occupation of Belgium from mid 1940 to late 1944.

The "AL" on the barrels crest stands for "Armee Luxembourg", making this Model 1949 one of only 3,606 rifles that were shipped on a government contract with the Luxembourg.

Featuring a 23" barrel, bladed front sight and rear elevation peep sight, 10 round-fixed magazine, manual safety, and has a smooth walnut full stock. Comes with canvas sling.

FN's battle rifle legacy started with the Model 1949, so don't miss your chance to get your hands on this rare FN!

Serial Number: 4788, **Barrel Length:** 23"
